ANNUAL REPORT
CITY OF NASHUA, N. H.

WILLIAM H. BARRY, Mayor.

FIFTY-NINTH ANNUAL REPORT
OF THE
MUNICIPAL GOVERNMENT
OF THE
CITY OF NASHUA
FOR THE
FINANCIAL YEAR 1911.

NASHUA, N. H.:
THE MARQUIS PRESS,  PRINTERS AND BINDERS
1912.

N

352.07

N253

1911

ADDRESS DELIVERED BY

HIS HONOR, MAYOR BARRY,

At the Joint Convention of the City Councils, Jan. 1, 1912.

GENTLEMEN OF THE CITY COUNCILS:

One year of our administration has passed, and the work we obligated ourselves to perform has become history. Whether and how well we have fulfilled our duties are questions that our constituents must answer, and to their praise or criticism in humility we bow.

In the endeavor to give the City a good business administration, we have been met by anticipated criticism and annoyance, and it is to our praise at least that however caustic the reference, however bitter the reflection we have unswervingly pursued the course mapped out in the knowledge that our actions were secure in a cause we believed was right. Responsibilities have been assumed in an open straightforward manner, free from favoritism or fear, with a ready willingness to consider new issues in the light of progress and expediency.

The policy to meet all ordinary expenditures within the money appropriated is a sound axiom of business principles and adherence to the same shows the fulfillment of your duty to your city and yourself.

It is not my intention to discuss the work of the various departments at length, as their report soon to be made will speak for themselves. I assure you, however, that officials have faithfully performed the duties intrusted to their care, and that in most cases our policy of economy has been followed throughout.

The following is a statement of the resources and liabilities of the City:

LIABILITIES.

Bonded Debt	\$893,508.91
Time Notes.....	51,000.00
Demand Notes.....	77,395.10
	<hr/>
	\$1,021,904.01

RESOURCES.

Uncollected taxes, 1907.....	\$5,603.55
Uncollected taxes, 1908.....	7,140.24
Uncollected taxes, 1909.....	9,130.65
Uncollected taxes, 1910.....	10,569.74
Uncollected taxes, 1911.....	60,806.58
Sinking Fund.....	366,262.08
Taxes purchased.....	2,669.17
Cash on hand.....	5,378.71
	<hr/>
	\$467,560.72
Total liabilities.....	\$1,021,904.01
Total resources.....	467,560.72
	<hr/>
Net Debt	\$554,343.29
Net Debt, December 31, 1910.....	\$603,871.49
Net debt, December 31, 1911.....	554,343.29
Decrease in Debt	\$49,528.20

During the past year frequent demands for lighting new localities have been carefully considered, and as conditions warranted lights have been installed with a view to efficiency and economy.

As pointed out to you within this year, estimates as a basis for a contract for lighting the City Streets will be received. In this matter be guided only by the interests of the whole people you represent that the final arrangement be the best that honest business efforts can obtain.

In its care of streets and highways and sewers and drains, the Board of Public Works has followed the policy of former Boards in distributing improvements about the city as necessity and finances permit.

The system of oiling the streets, adopted without provision therefor in the annual appropriation, has been a source of unforeseen expense, but the results warranted the outlay and demand such extension as the city can afford. While this improvement is in the experimental stage we are confident that as time goes on and the practice continued, we have arrived at a plan by which most of our streets may be treated, saving cost otherwise chargeable to maintenance and repair. I recommend the continuance of this plan with a wider and more extended field of operation.

The opening of Eaton Street in the west end will entail the installation of a sewer system in a district now thickly populated. This, with such improvements as a new highway demands, are permanent improvements and should be borne by present and future tax payers through a bond issue covering the same.

Highways are the principal city agencies upon which business is transacted, and for their up-keep, modern means and methods of travel require more attention and expense. I recommend an

increase in the appropriation for this Department that our highways may be brought to a higher standard.

The installation of an incinerator, at the East Hollis Street property, has been by experts considered unfeasable. The nature of the material, its tendency to be carried in burning brands, and the congested district about the property all point to a source of danger that would more than offset the good to be obtained. The policy of separating ashes and rubbish, planned for an incinerator, will, however, be continued, as good results have attended, and the future may supply the plant at the City Farm or elsewhere.

The Police and Fire Department, the silent protectors of our lives and property, have been efficiently managed, and results show good returns for the money expended. I recommend the transfer, if permissible, of the City ambulance to the jurisdiction of the Fire Department, where at all times and at a moment's notice this necessary and important vehicle can be reached without fuss or delay.

To our school department should be accorded generous support in carrying on the noble work of education, having in mind expediency, financial ability and practical results, virtues that we all, as City Officials, should in harmony adopt.

In the various city departments, it will be found that each official has labored for the interests of the community as a whole, all bent upon one desire, to merit the commendation of the citizens whose welfare they have sworn to protect.

For the proper performance of the City's needs, each department must look to the City Councils for financial means, and in this particular lies your most important work in the year to come.

Appropriations must always be made consistently with the city's resources, and with the provision that each department live within its allotment, coupling increased efficiency without increased cost. Our City Charter has designated the City Councils as the appropriating body, and once the limit is set by this body, any extension of the amount given, except under unusual circumstances, is a defiance of this law and a dereliction of official duty. This provision should always be borne in mind by departmental officers and a strict adherence thereto insisted upon.

For the present year, let us continue the policy of pay as we go setting a tax rate that will leave no legacies for succeeding administrations to shoulder. Let our future actions be in accord with those of our past, based on the idea of obtaining, not the expensively best, but the best the city can afford.

In conclusion, I desire to thank you, one and all, and each city official, for your assistance, co-operation and confidence in the work we have undertaken. I ask a continuance of your support and good offices, confident that the close of the year to come will find us true to our City, our citizens and ourselves.

City Government of the City of Nashua, N. H.

For the Years 1911-1912.

C. B. Watkins, Spare Driver.
J. W. Jones, Spare Driver.
R. E. Hallisey, Driver, Chief Team.
F. Laforme, Spare Driver.

Fire Alarm Telegraph.

This branch of the service is now in perfect condition excepting the placing of wires in ducts located by N. E. T. & T. Co., in place of over head wires.

Instructions to Key Holders and Citizens.

1. Upon the discovery of a fire, go to the nearest box, break glass in key box, place key in lock, turn, and hold back with key, as it is a spring lock, pull down the hook as far as it will go; shut the door. Do not try to remove the key, as it is locked in, and cannot be removed only by the engineers.
2. All persons giving alarms should remain awhile beside the box so as to direct the firemen to the fire.
3. No person will give an alarm for the same fire after the first alarm has been given without an order from an engineer or the officer in command, and the person so ordered will be sure to go to the same box from which the first alarm was given and report to the chief engineer.
4. Never signal for a fire seen at a distance; never touch a box except to give an alarm of fire; do not give an alarm for a chimney or grass fire, but notify central or nearest fire station by telephone.

Apparatus and Hose.

The apparatus consists of four Amoskeag steam fire engines, one-horse reel, four two-horse hose wagons, four supply wagons, one hook and ladder truck, one combination chemical hook and ladder truck, one Babcock chemical engine.

Steamer No. 3 is being repaired, estimated cost, \$1,000.

We have at present, about 10,000 feet of fabric hose in good condition.

Estimated Value of Property.

Fire Alarm Telegraph.....	13,900.00

\$142,785.00

We would recommend the following: An up-to-date Aerial Ladder Truck, estimated cost \$5,000.00; additional work on Lake Street tower for drilling purposes, estimated cost, \$200.00; also cable to be placed in ducts laid by New England Telephone and Telegraph Company, in place of overhead wires, at an estimated cost of \$350.00. 1-Motor driven Combination Chemical and Hose Apparatus, estimated cost, \$6,000.00 purchase; 1,000 feet of hose, estimated cost \$750.00; and an appropriation of \$41,000 for running expenses of the Fire Department for year 1912.

Respectfully submitted,

GEORGE F. ADAMS,

JAMES H. CONNOR,

HARRY W. RAMSDELL,

Board Fire Commissioners.

ANNUAL REPORT
OF THE
BOARD OF PUBLIC WORKS,
FOR THE
Year Ending December 15, 1911.

To his Honor, the Mayor, and the City Councils of the City of Nashua, New Hampshire:

GENTLEMEN: The Board of Public Works respectfully submits its annual report for the year ending December 15, 1911.

Organization.

Hon. William H. Barry, Mayor (Chairman ex-officio).
Erwin O. Hathaway, City Engineer, (Member ex-officio) Clerk.
Frank T. Lewis, terms expires December 31, 1912.
Joseph Rousseau, term expires December 31, 1913.
John Hagerty, term expires December 31, 1914.

Appropriation.

Total amounts approved by Board..	\$54,200.54
Regular appropriation by City.....	\$50,000.00
Expended on Taylor's Falls Bridge..	2,970.50
Expended on Skating Rinks.....	16.18
Expended from Cash on hand.....	954.13
	<hr/>
	53,940.81
Overdraft for 1911.....	\$259.73

EXPENDITURES.

DISTRIBUTION OF EXPENDITURES BY DEPARTMENTS.

HIGHWAY DEPARTMENT.

Bridges and Culverts.....	\$3,502.49
Catch Basins.....	2,623.03
Crossings.....	391.87
General Repairs and Maintenance.....	13,811.22
Paving Gutters.....	284.22
Removing snow and sanding streets.....	2,193.08
Paving.....	5,344.21

Some Items of Expenditures.

Bridges and Culverts: \$3,502.49

This includes the construction and maintenance such as painting and resurfacing with plank and tar concrete, of all the highway bridges and culverts withing the city limits and the Suburban Districts. The greater part of this expenditure was on the Taylor's Falls Bridge.

Catch Basins: 2,623.03

General cleaning, repairing and cost o constructing new ones. Eighteen new basins were constructed during the year and are distributed as follows: Allds St. 1, Benson Ave. 2, Broad St. 4, Burke St. 4, Harbor Ave. 3, Quincy St. 1, and Main St. 3.

Crossings: 391.87

Cost of constructing and maintaining tar and flagstone crosswalks for the year.

General Repairs and Maintenance: 13,811.22

The cost of repairing and keeping all the streets in good, safe and passable condition necessitates a large expenditure, among the larger of which are as follows:

Allds.....	275.38
Ash.....	100.00
Bridge.....	153.27
Chandler.....	181.49
Haines.....	145.63
Lowell Road.....	1,517.22

Newbury.....	\$222.11
Nutt.....	153.61
Orange.....	162.50
Shattuck.....	122.62
Stark.....	105.97
Suburban Roads.....	2,901.56

Paving Gutters: 284.22

But very little has been done in this line, and the expenditure this year was less than usual.

Removing Snow and Sanding Streets: 2,193.08

This includes plowing snow from the sidewalks, sanding them when slippery, also the breaking out of the Suburban Roads after snow storms, and to some extent the removal of snow and ice from the city streets. This year the snow fall has been less than usual hence a correspondingly small amount has been expended.

Paving: 5,344.21

The principal paving job done this year was Main Street. Both aides were paved with Bituminous Macadam from Salmon Brook Bridge to Lawndale, Tarvia X being used as binder.

Edgestone: 1,276.30

This item includes cost of new stones, cost of setting same and cost of resetting old stones. New stones have been set as follows:

APPLICANT	STREET	FEET SET
Wm. T. Dempsey, heirs.....	5 Salem St.....	50.0
Victorien Lavoie.....	1 Salem St.....	102.2
Alphonse Pelletier.....	7 Salem St.....	53.0
Mrs. Cordelia Girouard.....	52 Perham St.....	44.5
Lillie P. Dutton.....	104-106 Bowers St.....	101.7
Nellie E. Winslow.....	13-15 Harvard St.....	38.0
John Flynn.....	6 Haines St.....	56.25
C. L. Sandlund.....	8 Haines St.....	50.0
Basile Paquette.....	10 Haines St.....	50.0
Nazaire Duchesneau.....	14 Haines St.....	50.0
E. M. Aldrich.....	16 Haines St.....	50.0
Isaac Richer.....	18 Haines St.....	50.0
Mary Greenwood.....	20 Haines St.....	50.0
M. Lussier.....	47 Lake St.....	56.5
B. J. Gaffney.....	120 Kinsley St.....	91.5
J. B. Carron.....	102 Kinsley St.....	69.4
Giles Daudelin.....	84-86 Kinsley St.....	54.1
A. F. L. Perrault.....	63 Kinsley St.....	40.5
A. F. L. Perrault.....	Pine St.....	87.0
A. Dube.....	167 W. Hollis St.....	77.25
Ledoux Brothers.....	W. Hollis St.....	6.8
Ledoux Brothers.....	Palm St.....	8.4
Wheeler & Nutting.....	Lock St.....	23.8
Patrick Barry.....	Ash St.....	109.9
Patrick Barry.....	Nevada St.....	55.5

City Waste: \$7,055.14

The collection and disposal of the waste of the city is becoming more serious each year. The quantity is continually increasing and the difficulty of finding suitable dumping places within reasonable distances is becoming more difficult. The board is making a study of the situation in hopes that a more economical and better method may be adopted.

Trimming and Care of Trees: 165.10

This includes cutting and removing dead limbs and trees in the city streets.

Street Cleaning: 7,645.33

Street cleaning is one of the large and important items and includes all labor and mate-

rial necessary to keep the paved and unpaved streets in a clean and sanitary condit on.

Repair Tools: 284.43

All repairs to tools and machinery except the City Teams, which are included in a separate item.

Tools and Supplies: 1,048.62

The cost of all new tools, machinery and supplies not otherwise accounted for during the year.

*These expenditures include amounts spent on Taylor's Falls Bridge.

The work of abating the dust nuisance has for a number of years been undertaken by private parties who secured subscriptions from individuals and monthly payments from the different departments of the city. Water was the material used and during hot, dry weather it was impossible with facilities available to keep the dust down. On this account, and after numerous requests, the Board has undertaken to oil the principal thoroughfares in the city. The results have been sufficiently satisfactory to convince us that the practice of oiling should be continued in some manner and extended wherever conditions warrant.

NASHUA, N. H., Jan 11, 1912.

Librarian's Report.

To the Trustees of the Nashua Public Library:

GENTLEMEN: The report of the librarian for the year ending December 31, 1911 is herewith submitted.

I am pleased to report that previous activities have continued throughout the year, with an encouraging use of the library, as following statistics will show.

The library was open 305 days, the Reading Rooms, 347. Tuesday evenings and Thursday afternoons and evenings, the library and Reading Rooms were closed during the months of July and August. The Reading Rooms were also closed the Sundays of those months, closing on holidays has been continued according to the usual custom.

The circulation was 78,302, a gain over that of last year of 3,302. The largest number of books given out on one day was 585, the smallest, 40.

The number of books and pamphlets added to the library during the year has been 1834; by purchase, 1117; by gift, 217; deducting books worn and withdrawn also those lost, the present number is now 30,239. This year more than the usual number of books were in such a condition that there was no question regarding their withdrawal. It has not been thought best to replace all, as these were largely fiction, some no longer being read, and of others there are duplicates, and the demand for them not being the same as when the books were first published. That any books can be lost is to be regretted, but our experience is like that of other libraries, even with the closest watchfulness it can not be prevented.

A few books in foreign languages, other than French which we have had for some years, have been added. Should there be a demand for them, further purchases may be desirable.

We have now a complete set of Nashua Directories, and it is to be hoped the Library may yet have a perfect file of the Nashua

Telegraph. All efforts to secure one have thus far proved fruitless.

There have been 82 periodicals regularly received, of these 20 were given.

As far as possible repairing is done in the Library, but it has been necessary to send 518 volumes for rebinding, and 35 periodicals have been bound.

The work with the schools has been similar to that of previous years. Teachers taking books they wish for school use with little limit as to time or number. Pupils making even more use of both the reference and main libraries.

That borrowers may know what the Library has to interest or help them bulletins are published quarterly, lists of the months additions and given in our daily paper, and type written ones placed near the delivery desk, also 2,404 cards written for the card catalogue during the year, and as far as space will permit the newest and most interesting books placed where they are accessible to the public.

The number of new borrowers registered during the year was 677; in the main room, 411; in the children's, 266.

Our year has been saddened by the death of Miss Blanche Willoughby, the Children's Librarian, a grief to all who knew her. Her pleasant, cheerful manner, always obliging, never impatient, endeared her to all associated with her. The children loved her and mourned for her. We are fortunate in having Miss Emma Dary in her place, she having had experience in that department.

Respectfully submitted,

HARRIET CROMBIE,
Librarian.

REPORT OF MILK INSPECTOR.

NASHUA, N. H., March 14, 1912

TO THE BOARD OF HEALTH OF THE CITY OF NASHUA:—

GENTLEMEN:— I submit below my report as Milk Inspector of the City of Nashua for the year ending Dec. 31, 1911.

Licenses.

The total amount of licenses issued during the year was (97) \$194. being received from this source. This sum has been turned over to the City Treasurer.

Examinations.

During the year several samples have been collected and examined by me and in no case did I find evidence of adulterations or preservatives being used. Each sample was examined for the percentage butter fat and also for the amount of total solids present.

Ice Cream

The ice cream sold in this City during the year was found to be up to the standard and free from adulterants. This city is very fortunate in having such good milk supply and is up to the general average of other cities.

Respectfully submitted,

GEORGE F. SPILLANE,
Milk Inspector.

CITY SOLICITOR'S REPORT.

NASHUA, N. H., FEBRUARY 6, 1912.

To His Honor, the Mayor, and City Councils of Nashua:

GENTLEMEN: I submit the following report of my acts during the year 1911.

With the able assistance of His Honor, the Mayor, I have disposed of the following cases in which the city was interested and which were pending at the time of my coming into office:

Ledoux v Nashua. An action to recover damages to a horse falling on the Hassam pavement on Main St., was tried before a jury, and a verdict rendered in favor of the city.

Shaw, admr. of Kennedy Estate v Nashua. An action for the recovery of damages sustained by the deceased in an automobile accident on the Pennichuck bridge on Concord St., was also tried before a jury and a verdict rendered in favor of the city. In this case the Town of Merrimack was also a party defendant with the City of Nashua, and the firm of Taggart, Tuttle, Burroughs & Wyman of Manchester represented the town and we were joined with them in the defense of the case.

Alvaro Realty Co. v Nashua. An appeal from the award of damages by the Board of Aldermen in the laying out of Arlington Ave. in 1908, was heard by the Court and the additional sum of \$60.00 was granted the petitioner, making the total damages \$100.00 and costs. The additional amount of damages allowed would seem to be for the taking over of a private sewer, which had been overlooked.

Nashua v The Worcester & Rochester R. R., and Boston & Main R. R. A petition to compel the railroad to secure the

bridge at crossing at Eaton Street, has been disposed of, the railroad having agreed to build this bridge by May 1 of the present year. The agreement is a matter of Court record, and I am informed the plans and specifications have been agreed upon and approved, and a full written agreement with specifications will soon be completed.

Parker v Nashua. Petition for abatement of taxes on real estate at the corner of Temple and Court streets, has been dismissed.

C. R. Pease House Furnishing Co. v Nashua. Four petitions for abatement of taxes upon stock in trade, fixtures and real estate upon West Pearl Street, were also dismissed.

Nashua Card & Glazed Paper Co. v Nashua. Two petitions for abatement of taxes, have also been dismissed.

Gale v Nashua. An action to recover damages to the plaintiff caused by a fall on Fifield Street, was also dismissed.

Tessier v Nashua. A petition for abatement of taxes had been heard by the Supreme Court in December, 1910, and decided in favor of the petitioner in January, 1911, and was consequently dismissed, the abatement being granted. This case and the one following were attended to by His Honor, the Mayor, as I was interested in these petitions for one of the petitioners before coming into office.

St. Onge v Nashua. A petition for abatement for taxes awaited the disposition of the above case, the same question being involved, and was consequently disposed of in the same manner. All these cases above cited, that were dismissed, were so dismissed without costs to the city.

There then remains in the docket for trial or disposition the following cases:

Gallagher v Nashua. An action to recover damages for polluting water in a well on plaintiff's land.

Wright v Nashua. An action to recover damages for polluting water in a well on plaintiff's land.

Nashua Concrete Co. v Nashua. An action to recover damages for taking gravel from plaintiff's land on Chestnut Street.

Dodge v Nashua. Petition for the award of damages caused to plaintiff's land by the change of grade on the Concord road.

Nashua v Londonderry, Windham, Hudson, Litchfield and Pelham. A petition for contribution for the construction of the new Taylor's Falls Bridge.

Nashua v Nashua Street Railway, and Boston & Northern Street Railway Co. Same as above.

Hudson v Londonderry, Windham, Litchfield, Pelham and Nashua. Same as above.

Boston & Maine RR. v Barry et Als. (The Board of Mayor and Aldermen). A petition to prevent the laying out of Nagle Street and the establishing of a grade crossing.

Boston & Maine RR. v Barry et Als. (The Board of Mayor and Aldermen). A petition to prevent the laying out of Seventh Street and the establishing of a grade crossing.

During the year 1911, I have fulfilled all other duties incumbent on me as City Solicitor.

Respectfully submitted.

H. A. BURQUE,
City Solicitor.

ANNUAL REPORT

OF THE

TRUSTEES OF WOODLAWN CEMETERY.

TO HIS HONOR, THE MAYOR, AND THE CITY COUNCILS OF
THE CITY OF NASHUA, N. H.

GENTLEMEN: The Trustees of Woodlawn Cemetery respectfully submits the following as their Annual Report for the year of 1911.

Electric Lights have been installed in the Chapel, Superintendent's office, Tool Shed, and the Greenhouse. 306 feet of 10" sewer and 56 feet of 5" sewer has been laid; 2000 feet of brick gutters 18" wide has been put down; a new concrete hot bed 42 x 6 feet has been built; 9 perpetual care lots were regraded, and 38 perpetual care lots repaired and monuments and curbing cleansed; 56 headstones have been re-set and the graves repaired where needed, on lots where no care given.

The total number of interments during the year were 129, as follows: resident, adults, 58; resident, children, 19; out of town, adults, 50; out of town, children, 2; removals in this cemetery, 1; bodies placed in tomb, 5. The remains of five (5) soldiers have been buried during the year, making the total number of soldiers' graves on January 1, 1912, 306.

Nineteen (19) services were held in the chapel.

Sixteen perpetual care bonds have been issued; fourteen (14) lots have been sold and deeds given.

1300 brown tail moth nests have been removed.

A record of all regular and special meetings of the Board of Trustees has been kept.

The following is a statement of the condition of the perpetual care fund and the financial transactions for the year ending January 16, 1912.

The products of the Greenhouse are estimated as follows:

Plants and flowers used for perpetual care and ornamentation	\$912.50
Received for sale of flowers, plants and shrubs	491.96
	<hr/>
	\$1,404.46

Perpetual Care Fund.

ANNUAL REPORT

OF THE

TRUSTEES OF SUBURBAN CEMETERIES.

TO HIS HONOR, THE MAYOR, AND THE CITY COUNCILS:

GENTLEMEN: The Board of Trustees of Suburban Cemeteries hereby submit their fifteenth annual report.

Condition of the Cemeteries.

During the past year the cemeteries have all received their usual care. Considerable progress has been made in the laying out of the new part of the Evergreen Cemetery. Lack of funds has prevented the relaying of the wall at the Old South, also the painting of the fences mentioned in last year's report.

Interments.

The interments have been as follows: two in the Hillside Cemetery and three in the Evergreen Cemetery, making a total of five interments for the year.

Finances.

Cash in hands of Treasurer, January	
1, 1911.....	\$76.86

City Guaranty Savings Bank.....	357.68
Citizen's Institution for Savings.....	317.55

Memorial.

In the death of our associate Levi W. Goodrich, the Board of Trustees of Suburban Cemeteries, desire to express its sorrow for the loss of one of its most efficient members, who passed from among us December 15, 1911. Mr. Goodrich had been a member of the board since its organization, and had served as Secretary and Superintendent of yards, most satisfactorily. He was kind, obliging, courteous and always faithful to his trust, and contributed greatly to beautifying the last resting place of those whose light had gone out.

We, his brother trustees, would add our tribute of respect to a most worthy and loyal citizen, and extend our heartfelt sympathy to his bereaved family.

ARTHUR H. COTTON,
Secretary.

ANNUAL REPORT

OF THE

TRUSTEES OF EDGEWOOD CEMETERY.

TO THE HONORABLE MAYOR AND CITY COUNCILS:

The Trustees of Edgewood Cemetery present the 19th annual report of said Cemetery, covering the calendar year 1911, as follows:

The usual work required about the grounds has been carefully done, and further progress has been made in improvements along lines pursued for the past few years, contemplating the gradual improvement of the whole of our premises. Much further work has been done on Border Avenue, but it has not yet been completed.

The following statements show our financial condition as of December 31, 1911, and the result of the year's transactions.

Trust Funds for Perpetual Care of Lots.

Amount at last annual report.....	\$13,806.33

REPORT

OF THE

PARK COMMISSIONERS

TO HIS HONOR, THE MAYOR, AND CITY COUNCILS OF THE
CITY OF NASHUA.

GENTLEMEN: The Park Commission make the following
report for the year ending December 31, 1911.

Greeley Park,

During the year a number of the trees in the oak grove have been removed to give room for the more healthy ones to expand. This has been done by the advice of the Superintendent of Parks of Boston, and under the supervision of an expert forester from the same Department. Already the remaining trees have responded to the improvement by sending out new branches and by having a healthier appearance in general. The sale of the wood obtained in the process of thinning the grove has paid for the cost of the work.

It is a pleasure to announce another very generous gift to Greeley Park by Mr. John E. Cotton. The gift is in the form of a beautiful building of stone and cement with tile roof. The building is to have toilet rooms for both ladies and gentlemen. There is also to be a pool of running water, and a fountain for drinking purposes. There are to be seats within the enclosure thus providing a place of rest where one can be sheltered from

the heat or storm. When completed the building will be one of the finest of its kind within the state. The plans call for an artistic gravel walk from the building to Concord Street. Mid-way between the building and the street will be a fountain and a shallow pond with cement bottom. There will be beautiful flower beds on either side of the walk thus making an attractive entrance to the building.

South Common.

The special appropriation of \$500.00 for South Common has been given careful attention. The portion of the common that was graded last year has been loamed and seeded. The coming year will see a good substantial sod. Trees are to be set out on the new ground the coming season.

Moth Work.

By having an appropriation at hand so as to be able to begin the work of removing the nests early in the winter has again proved a great saving in the cost of the work. We find that the number of Brown Tail Moth nests are considerable less than last season. We have however many more Gypsy Moth nests which may prove more serious than the Brown Tail Moths.

The Elm Beetle is now a serious problem which confronts our shade trees. The only remedy known is that of spraying. This must be done in this spring or there is danger of losing some of the trees that were so badly infested last year.

In our work of removing nests from the trees we find that many of the trees need trimming. There are many dead limbs and also limbs that cross each other which causes a chafing that in time will destroy both limbs. We have had two accidents in 1911, caused by our men stepping upon dead limbs. Our public trees are in such bad shape that it is dangerous to prosecute our work. We have no authority to remove anything

but nests from the trees. We would suggest that the Park Commission be allowed to scientifically care for all public trees upon our highways as we have in our employ a graduate of the State College who has made a special study of this particular branch of forestry.

Other Squares.

The other squares have had their usual attention with the exception of Railroad Square. The oval in Railroad Square has been spaded and many pounds of fertilizer put into the soil. This has been done to try and save the trees from starvation and drought. The constant use of the oval by the public tends to keep the soil matted so hard that the nourishing rains are unable to soak in but run off into the street. It may be necessary to place a fence around the oval in order to save the trees.

Needs.

The Park System needs a larger appropriation for the coming year. The care taker for the new building at Greeley Park will be an added expense.

Respectfully,

HENRY H. DAVIS,
MOSES L. TRUELL,
HERBERT E. KENDALL.
Park Commissioners.

JAMES CLEARY, Captain.

EDWARD FIELD, Inspector.

CHARLES C. CAMERON, Turnkey.

REPORT
OF THE
POLICE COMMISSIONERS
OF THE
CITY OF NASHUA, N. H.
1911.

TO HIS HONOR, THE MAYOR, AND THE CITY COUNCILS:

The Board of Police Commissioners for the City of Nashua make their twentieth annual report for the year ending December 31, 1911.

The regular meetings of the Board, and such special meetings as have been necessary to call for the proper disposition of urgent business, have been held during the year. New appointments have been made as necessity required and the Police Force now consists of three Superior Officers, Inspector, twenty patrolmen, turnkey and ten reserve men.

Every year, on account of the rapidly changing population, demands are made for greater and more careful supervision, which means a large outlay of money, and a larger appropriation is inevitable if property is to be safely and properly guarded

During the summer months, additional police service is demanded and required for the regulation of the automobile traffic and with the large increase of this class of vehicle greater supervision will be required.

It is the unanimous opinion of your Board of Commissioners that a suitable Patrol Wagon is a necessity and should be provided for in order to efficiently meet requirements. Their opinion is that a combination patrol wagon and ambulance is feasible for police use and that this department can economically equip and maintain such.

The following is a statement of the different offences for which arrests were made, the number of same and showing how disposed of.

Arrests.

Arrests, male.....	1,143
Arrests, female.....	45

REPORT

OF THE

PROBATION OFFICER.

TO HIS HONOR, THE MAYOR, AND BOARD OF ALDERMEN:

The operation of the Probation System in connection with the Juvenile Court in the City of Nashua for the year 1911 was successful.

In addition to the eleven probationers carried over from the preceding year, there were placed on probation under my charge seventeen new cases of juvenile offenders. The majority of offences charged were petty larceny.

The aim of the Court in dealing with youthful offenders being reformatory rather than punitive, and a majority of those brought before the Juvenile Court were placed on probation under my charge rather than sentenced to the Industrial School.

I note improvement in almost every case which has come under my observation.

The Probation System has been especially effective in dealing with petty larceny.

REPORT OF EXECUTIVE COMMITTEE.

TO THE NASHUA HOSPITAL ASSOCIATION:

GENTLEMEN: The following is a summary of the work done in your hospital for the year 1911:

Number of surgical cases admitted.....	408
Number of medical cases admitted.	134
Number of accidents admitted.....	160
Total number of cases.....	702
Number of major operations.....	176
Number of minor operations.....	232
Total number of operations.....	408
Number admitted in moribund condition.....	3
Number died by accident and disease.....	20
Total number of deaths.....	23
Average number in the hospital each day.....	22
Number of patients who paid their bills.....	625
Number who paid part of their bills.....	32
Number who paid nothing on their bills.....	45
Average cost per patient per day.....	\$1.58

This is the lowest average per day costs which the management of the hospital has been able to reach since the institution was established and shows the practice of strict economy in all departments.

You will notice the steady increase in the total number of patients in the institution, and that the daily average has been raised from 17 in 1910 to 22 for the past 12 months.

The sleeping apartments of the nurses, in the annex, have been taken for private rooms for the patients and quarters for the nurses secured in a house across the street. With this additional room, very often every bed in the building has been occupied, and it has been necessary to resort to cots or other temporary expedient to accommodate those who seek admission and are willing to accept the best care and comforts that the house can supply.

We record with sorrow the death of Dr. George F. Wilber, the oldest practicing physician in Nashua, a friend of the hospital and a member of its staff since its foundation.

By his will, the Nashua Hospital Association is made residuary legatee after several bequests are paid. The will is now in litigation and when the differences of opinion are finally settled, it is hoped that the Emergency Hospital will have means to increase its facilities and assist in financing the work that it is doing.

We wish to call attention of the public to the need of money and supplies. Many patients are unable to pay anything and the expense bears heavily on an institution already burdened by a large debt.

Respectfully submitted,

A. W. SHEA, Chairman.

TRAINING SCHOOL FOR NURSES.

GENTLEMEN: January 1, 1911, there were 12 nurses at the institution. During the year, three were graduated; eight were accepted, two withdrew; and 50 applications for admission to the nurses' staff were received.

F. E. KITTREDGE, Chairman.

TREASURER'S REPORT.

Auditor's Report.

NASHUA, N. H., JANUARY 17, 1912.

I have examined the Treasurer's accounts and find them correct.

I. G. ANTHOINE,
Auditor.

ANNUAL REPORT

OF THE

BOARD OF HEALTH

TO HIS HONOR THE MAYOR, AND CITY COUNCILS:—

GENTLEMEN:—The Board of Health submits their report for the year ending Dec. 31, 1911.

Numerous complaints in regard to nuisances were received and promptly attended to in an impartial manner.

During the past year 62 cases of Scarlet Fever, 15 cases of Diphtheria and 215 cases of measles were reported to the Board of Health. This was an exceptionally large number of contagious diseases for this city. Many of these families required aid while in quarantine and in some cases nurses had to be furnished to maintain proper quarantine, this necessitated an overdraft of the Contagious Disease appropriation.

Many of the school buildings were fumigated during the year in an endeavor to prevent the spread of these diseases.

The Board of Health is many times called upon to remove a patient with a contagious disease from a boarding house, orphanage or public building to some place in order to protect the other occupants from exposure. This we find is a difficult thing to do as no one is willing to expose themselves to any of these diseases, and in view of this fact we recommend that the city appropriate a sum of money to construct an Isolation Hospital for Scarlet Fever and Diphtheria cases, and endeavor to have the same placed under the management of one of the

Hospitals now located in the city. By so doing the city would not be obliged to furnish nurses and support these families while in quarantine, and it would be only a few years before the city would save the amount expended for such a Hospital.

The present Isolation Hospital on Taylor Road should be equipped with Pennichuck Water and Telephone service, and kept for Small Pox cases only.

We find great need of a Health Officer who would receive sufficient salary to enable him to devote his entire time to the sanitary work of the city.

We recommend the appointment of a School Inspector in our schools and believe that such an officer would to some extent prevent the spread of contagious diseases.

The whole number of deaths reported to the Board of Health during the year are as follows:

REPORT OF CITY PHYSICIAN.

TO HIS HONOR THE MAYOR, AND THE CITY COUNCILS:—

GENTLEMEN:—I herewith submit the report of the City Physician for the year ending December 31, 1911.

During the year 398 house visits and 314 office visits were made by me to the dependent poor of the city, and 17 visits were made to the Police station.

Respectfully submitted,

A. F. MULVANITY, M. D.

City Physician

Resolutions and Ordinances

PASSED DURING THE YEAR

1911.

RESOLUTIONS AND ORDINANCES.

RESOLUTION.

ADOPTING JOINT RULES AND FIXING TIME FOR HOLDING
REGULAR MEETINGS.

That the joint rules of the City Councils for the year 1910 be, and the same are hereby adopted for 1911, until otherwise ordered. And the time for holding regular meetings be on the first and third Tuesdays of each month at seven o'clock and thirty minutes in the afternoon.

Passed January 2, 1911.

RESOLUTION.

AUTHORIZING THE COMMITTEE ON ACCOUNTS AND FINANCE
TO HIRE MONEY.

VOTED: That the Committee on Accounts and Finances be and they hereby are authorized to borrow from time to time during the current municipal year beginning January 2nd, 1911, in anticipation of the taxes of said municipal year, a sum or sums not exceeding Two Hundred and Seventy Five Thousand (\$275,000.) Dollars, for the purpose of meeting current expenses of the City, and the Mayor and City Treasurer are hereby authorized to execute and issue the negotiable note or notes of the City of Nashua therefor; every such note to become payable within one year from the date the loan for which it is issued is incurred, and no such note shall be valid unless authenticated by the cer-

tificate of the First National Bank of Boston. All debts incurred under authority of this vote shall be paid from the taxes of said current Municipal year.

Passed January 2, 1911.

RESOLUTION.

APPROPRIATING \$100 FOR THE FLOODING OF COMMONS.

That the sum of \$100. be and is hereby appropriated for the flooding of Commons in the City of Nashua, for the year 1911, to be expended under the supervision of the Board of Public Works.

Passed January 2, 1911.

RESOLUTION.

AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO LEASE CERTAIN PORTIONS OF THE CITY PROPERTY KNOWN AS THE WARNER-WHITNEY PROPERTY.

That the Committee on Lands and Buildings be and the same is hereby authorized and empowered to lease such part or parts of the City property, situated on East Hollis Street, and known as the Warner-Whitney property, as are not needed by the Board of Public Works of said City.

Passed February 7, 1911.

ORDINANCE.

CREATING A COMMITTEE ON PUBLICITY AND NEW INDUSTRIES.

Section 1. There shall be appointed on the enactment of this ordinance and thereafter, at the commencement of each year, a Joint Standing Committee on Publicity and New Industries, consisting of the Mayor, two members of the Board of Aldermen, appointed by the Mayor; the President, and three members of the Common Council, appointed by the president of the Common Council.

Section 2. It shall be the duty of this Committee to expend such money as shall be appropriated by the City Councils in exploiting the advantages and resources of the City by judicious advertising in written or printed form in accordance with Chapter 8, New Hampshire Laws of 1901, and to employ such assistance as may be deemed necessary in preparing and distributing the same.

Passed February 21, 1911.

RESOLUTION.AUTHORIZING AND DIRECTING THE CITY SOLICITOR TO APPEAR
AT HEARINGS OF THE NASHUA LEGISLATIVE DELEGATION.

That the City Solicitor be and he hereby is authorized and directed to appear before the Nashua legislative delegation at all hearings upon the bill to amend the charter of the Pennichuck Water Works and such other bills as may be there considered, with a view to protect the rights of the citizens and City of Nashua

Passed February 7, 1911.

RESOLUTION.

APPROPRIATING MONEY FOR EXTERMINATING BROWN TAIL MOTHS
AND OTHER INJURIOUS INSECTS.

That the sum of \$500.00 be and the same is hereby appropriated for the extermination of brown tail moths and other injurious insects in the City of Nashua. Said amount to be expended under the direction of the Park Commission and to be taken from any money in the City Treasury not otherwise expended.

Passed March 7, 1911.

RESOLUTION.

AUTHORIZING THE MAYOR TO SIGN THE CONTRACT FOR PRINTING
THE CITY REPORT.

That the Mayor be and hereby is authorized and instructed to sign the contract for printing the City Report for 1910 with Emile E. Marquis in accordance with the report of the Committee on Printing and Stationery.

Passed March 7, 1911.

RESOLUTION.

AUTHORIZING THE LANDS AND BUILDINGS COMMITTEE TO OBTAIN
BIDS FOR THE LEASING OF THE CITY FARM.

That the Committee on Lands and Buildings be and hereby is authorized and instructed to advertise for bids the leasing of the City Farm property for a period not exceeding five years. The committee shall report to the City Councils and its action shall be ratified by the same before taking effect.

Passed March 21, 1911.

RESOLUTION.

RESOLUTION.

AUTHORIZING THE MAYOR AND CITY TREASURER TO EXECUTE A
NOTE WITH HUNT LECTURE FUND TRUSTEES.

That the Mayor and City Treasurer be and they hereby are authorized and instructed to execute a note with the Trustees of the Hunt Lecture Fund in the amount of Five hundred and fifty \$(550.00) with interest at four percent, payable annually. The income derived from this note to be used by the Trustees of said Hunt Lecture Fund for the purposes set forth in the Act of the Legislative creating said Board of Trustees.

Passed April 18, 1911.

RESOLUTION.

APPOINTING A JOINT COMMITTEE TO CONFER WITH THE BOSTON & MAINE RAILROAD AUTHORITIES.

That a joint committee, consisting of five members, viz:—two aldermen, to be appointed by the Mayor, and three councilmen to be appointed by the president of the Common Council be appointed, to confer with the Boston and Maine Railroad authorities, with a view to obtaining from the latter, protection by fence or otherwise, along the railroad's property adjoining the Nashua River and the Jackson Company's Canal, off Canal Street, and east of the private way leading to the W. A. Shedd & Co. coal pockets.

Passed April 18, 1911.

RESOLUTION.

AUTHORIZING THE MAYOR AND CITY TREASURER TO ISSUE BONDS TO THE AMOUNT OF FORTY THOUSAND DOLLARS.

Persuant to the provisions of an Act passed by the Legislature of the State of New Hampshire, entitled "Municipal Bond Act of 1895," the Mayor and City Treasurer are hereby authorized to issue and the Treasurer to sell, under the direction of the Committee on Accounts and Finances, gold bonds of the City of Nashua, in the aggregate principal sum of forty thousand dollars, which bonds shall be of the date of June 1st, 1911, and shall be payable at the office of the City Treasurer at Nashua or at the First National Bank at Boston in the Commonwealth of Massachusetts. Said bonds shall be issued for the purpose of refunding an issue for a like amount issued June 1, 1891, and maturing June 1, 1911, and the proceeds of the sale thereof are hereby appropriated for that purpose. The said bonds shall be payable to bearer and shall mature twenty years from the date

thereof. The said bonds shall bear interest payable in gold at four percent. per annum, payable semi-annually on the first days of June and December of each year upon the presentation and surrender of the proper interest coupons to the Treasurer of City of Nashua at his office, or to the said First National Bank. The said bonds shall be signed by the Mayor and shall be countersigned by the City Treasurer, under the city seal, and shall bear the authenticated certificate of the said First National Bank, and the interest coupons shall bear the facsimile signature of the City Treasurer. The proceeds of the sale of said bonds shall be used to refund the issue of bonds above mentioned. The City of Nashua shall create a sinking fund sufficient to meet this issue of bonds.

Passed May, 16, 1911.

RESOLUTION.

AUTHORIZING THE MAYOR TO SIGN THE COAL CONTRACT FOR 1911.

That the Mayor be and is hereby authorized and instructed to execute a contract with the Nashua Coal & Ice Co. for coal for the several departments for the current year at the following prices:

Broken Coal	\$6.75 per net ton
Egg & Stove Coal	7.00 per net ton
Soft Coal	5.50 per net ton
up to Sept. 1, 1911.	

Subsequent thereto at an increase of 50c per ton on all except soft coal.

Passed May 16, 1911.

ORDINANCE.

REGULATING THE OPENING AND CLOSING HOURS OF PUBLIC POOL ROOMS AND BOWLING ALLEYS AND THE MANAGEMENT THEREOF.

Section 1. That the opening and closing hours for public pool rooms and bowling alleys shall be from 6 o'clock A. M. to 11 o'clock P. M.

Section 2. No minor under the age of eighteen years shall be admitted or permitted to remain in any licensed pool room or bowling alley unless accompanied by a parent or guardian. If the proprietor, keeper or manager of any such place shall violate any of the provisions of this Ordinance, he shall be fined not exceeding twenty dollars and forfeit his license.

Section 3. The City Clerk shall have copies of this Ordinance printed and distributed to licensees of pool rooms and bowling alleys. And that the City Marshall be furnished with a copy of this Ordinance and shall see that the same is enforced.

Passed May 16, 1911.

RESOLUTION.

APPOINTING A COMMITTEE OF SEVEN (7) TO OBTAIN RATES AND NECESSARY DATA FROM THE PENNICHUCK WATER WORKS WITH VIEW TO RENEWING THE CONTRACT FOR THE CITY WATER.

That a committee of seven (7) be and the same is hereby appointed to secure rates from the Pennichuck Water Works with a view to renewing the contract for the city water. Said committee to consist of the Mayor and two aldermen to be appointed by the Mayor, and the President of the Common Council

and three councilmen to be appointed by the President. Said Committee shall report back its findings and recommendations as soon as convenient.

Passed June 20, 1911.

RESOLUTION.

OMITTING REGULAR MEETINGS DURING THE MONTH OF JULY,
AUGUST AND SEPTEMBER.

That the first regular meeting of July be omitted and the second regular meetings be omitted during the months of August and September, 1911.

Passed June 20, 1911.

RESOLUTION.

APPOINTING A COMMITTEE TO COOPERATE WITH BOARD OF TRADE
AND OTHERS IN SECURING AN EXTENSION OF ELECTRIC CAR
LINE FARE LIMITS.

That a committee of five (5), consisting of the Mayor and one alderman, to be appointed by the Mayor, and the President of the Common Council and two councilmen appointed by him, be and the same is hereby appointed to cooperate with the Board of Trade, Retail Associates and other in securing an extension of electric car line fare limits.

Passed July 18, 1911.

RESOLUTION.

RAISING MONEY FOR THE PAYMENT OF THE TAYLOR'S FALLS BRIDGE
NOTES.

VOTED: The City Treasurer is hereby authorized, for the purpose of raising money for the payment of the Taylor's Falls

Bridge Notes, Nos. 1-10 for \$5,000. each, aggregating \$50,000., dated October 1, 1910 and payable one year thereafter, to issue \$50,000. par value of coupon notes dated October 1, 1911, payable October 1, 1912, bearing interest at a rate not exceeding five percent. per annum, payable semi-annually on the first days of April 1912 and October 1912. Said notes shall be payable at the First National Bank of Boston, in Boston Mass., and shall bear the authenticating certificate of that Bank, shall bear the city seal and be signed by the Mayor, countersigned by the Treasurer, and the coupons shall bear the facsimile signature of the Treasurer. They shall be considered as issued by virtue and in pursuance of the Municipal Bonds Act of 1895.

Passed August 1, 1911.

RESOLUTION.

IN RELATION TO THE TIME FOR THE PAYMENT OF POLL TAXES.

That the time for the payment of poll taxes in the City of Nashua be on or before September 1, 1911, and if such tax shall remain unpaid, the collector is directed to proceed in the collection of the same according to Chapter 19, Section 60, of the Public Statutes of the State of New Hampshire.

Passed August 1, 1911.

ORDINANCE.

AMENDING SECTION 17, CHAPTER 24 OF AN ORDINANCE REVISING AND CONSOLIDATING THE CITY ORDINANCES.

Strike out the word "years" where it appears in said Section and substitute in place the word "days" so that said Section shall read as follows:

Section 17. Any person convicted of any offence in the Chapter mentioned, shall be punished by a fine not exceeding ten dollars, nor less than one dollar, and shall pay costs of prosecution, and stand committed until the sentence be performed, or by imprisonment in the common jail for the county for a term not less than five days, nor more than thirty days, or by confinement at hard labor the like term in the house of correction, at the discretion of the police court.

Passed October 3, 1911.

RESOLUTION.

EXEMPTING FROM TAXATION CERTAIN PROPERTY OF THE W. H. McELWAIN COMPANY.

Whereas it is provided by Section 11, Chapter 55 of the Public Statutes of New Hampshire that "towns may by vote exempt from taxation for a term not exceeding ten years any manufacturing establishment proposed to be erected or put in operation therein and the capital to be used in operating the same, unless such establishment has been previously exempted by same town," and

Whereas by resolution of the Mayor and Aldermen and Common Council of the City of Nashua adopted November 22, 1910 all the machinery, stock in trade and other property which might be owned by W. H. McElwain Company, at that time incorporated under the laws of the State of Maine, in the factory then occupied by the Estabrook-Anderson Shoe Company and situated at the corner of Lake and Ash Streets in the City of Nashua or in addition which might be made thereto, for the manufacture of boots and shoes, and the capital to be used in operating the same and the business connected therewith, be exempted from taxation for the period of ten years from the first day of December 1910, and

Whereas W. H. McElwain Company is now incorporated under the laws of the Commonwealth of Massachusetts, therefore, be it

Resolved that the said exemption be continued to and confirmed in the W. H. McElwain Company, incorporated under the laws of the Commonwealth of Massachusetts, and that all machinery, stock in trade and other property which may be owned or used by the said W. H. McElwain Company, incorporated under the laws of the Commonwealth of Massachusetts in the said factory at the corner of Lake and Ash Streets or in any addition which may be made thereto, for the manufacture of boots and shoes, and the capital to be used in operating the same and the business connected therewith, be exempted from taxation for the said period of ten years from the first day of December 1910, provided that said W. H. McElwain Company pay to the City of Nashua, annually, the amount of the State and County taxes due in respect to the said exempted property from the City of Nashua to the State of New Hampshire and the county of Hillsborough as required by an act of the legislature of the said State approved April 9, 1909, and entitled "An act in Amendment of Section 11 of Chapter 55 of the Public Statutes relating to tax exemptions," and be it further

Resolved that this Resolution shall effect upon its passage.
Passed December 5, 1911.

REPORT OF THE BOARD OF EDUCATION

CITY OF NASHUA, N. H.

19

11

Board of Education

CITY OF NASHUA.

CLERK'S OFFICE, FEBRUARY 2, 1912.

At a special meeting of the Board of Education held January 19th, 1912, the reports of the Superintendent of Schools, Principal of the High School, Directors of Music, Manual Training, Drawing and Sewing were read and accepted. It was voted to print three hundred and fifty copies of the same.

ALBERT J. McKEAN,

Clerk.

Board of Education

Organized for 1911

HARRY H. BLUNT, Pres. ALBERT J. McKEAN, Clerk.

MEMBERS.

Harry H. Blunt	26 Kinsley St.,	Wonalancet Co.
Charles E. Congdon,	30 Concord St.,	77 Main St.
Albert J. McKean,	36 Concord St.,	70 East Pearl Street
Daniel W. Perry,	82 Factory St.,	Nashua Mfg. Co.

Terms expire December 31, 1912.

John H. Field,	1 Dunstable Rd.,	22 High St.
Charles W. Howard,	40 Berkeley St.,	117 Main St.
Arthur K. Woodb'y,	42 Arlington St.,	42 Arlington St.
Arthur L. Wallace,	19 Manchester St.,	206 Main St.

Terms expire December 31, 1914.

Ernest W. Gray,	3 Ritter St.,	Nashua Mfg. Co.
Walter F. Norton,	10 Webster St.,	N. L. H. & P.Co.
Frank P. Rideout,	Lowell Road,	C. H. Jackman.
John D. Gardiner,	15 Manchester St.,	Gardiner, Beard- sell Co.

Terms expire December 31, 1916.

Board meets regularly, fourth Friday of each month at 8 o'clock P. M.

STANDING COMMITTEES.

Attendance,	Rideout, Wallace, Gray.
Finance,	Perry, McKean, Howard.
Houses,	Woodbury, Field, Norton.
Industrial Training,	Congdon, Howard, Gardiner.
Music,	Norton, Wallace, Gardiner.
Printing,	Blunt, McKean, Woodbury.
Sanitation,	Wallace, Gray, Rideout.
Supplies,	Howard, Field, Norton.
Teachers,	Field, Congdon, Perry, Howard.
Text Books,	McKean, Congdon, Wallace.

SUB-COMMITTEES.

High School,	Field, Congdon, Perry.
Spring Street,	Perry, Field, Woodbury.
Mount Pleasant,	Congdon, McKean, Gardiner.
Arlington Street, }	Woodbury, Wallace, Norton.
Edgeville, }	
Amherst Street,	Howard, Congdon, Gardiner.
Harbor,	Gardiner, Field, Rideout.
Belvidere,	Norton, Woodbury, Gray.
Palm Street,	Gray, Perry, Norton.
O'Donnell,	Wallace, Norton, Gardiner.
Shattuck Street,	Congdon, McKean, Howard.
Mulberry Street,	Gardiner, Gray, Rideout.
Kindergartens,	McKean, Perry, Howard.
Lake Street, }	Rideout, Wallace, Woodbury.
Suburbans 1, 2, 3, 4, 5. }	
Suburbans, 6 and 7,	Woodbury, Wallace, Rideout.
Evening Schools,	Howard, McKean, Field.
High School Athletics,	Field, Norton.

SUPERINTENDENT OF SCHOOLS.

James H. Fassett, 14 Abbott St., Municipal Bldg.
Marion L. Wingate, Clerk, 43 Granite St., Municipal Bldg.

Office Hours: Every school day—8.00 to 12.00 P. M., and
1.00 to 5.00 P. M. Saturdays—9.00 A. M. to 12.00 M.

TRUANT OFFICER.

Henry B. McCaffrey, 99 Elm St., Municipal Bldg.

REPORT OF THE SUPERINTENDENT

GENTLEMEN OF THE BOARD OF EDUCATION:

I beg to submit my nineteenth annual report, the forty-fifth of its series.

STATISTICS.

It is sometimes both interesting and instructive to compare the school statistics of to-day with those of twenty years ago. I intend, therefore, in a brief way, to compare a few of the conditions existing in the schools of Nashua in 1891 with those of 1910, thus completing the full twenty years.

Twenty years ago, there were 1861 pupils attending the schools of Nashua. At the present time there are 2852, an increase of nearly 1000 pupils and also an increase of over 53 per cent.

Twenty years ago, there were sixty-six teachers employed in the schools of Nashua. To-day, there are one hundred two, an increase of fifty-four per cent.

Twenty years ago, forty-six per cent. of the school rooms were heated by wood stoves, where the children at one end of the room were frozen, while those at the other end were too hot for comfort. To-day, none of the city schools are heated by wood stoves.

Twenty years ago, only thirteen per cent of the school rooms had any proper system of ventilation. To-day all of the city schools are adequately ventilated and heated.

Twenty years ago, over thirty per cent of the school rooms were equipped with the old-fashioned double desks, which are so unsatisfactory from a teacher's point of view. To-day, there are no double desks in the entire city.

Twenty years ago, many classes had more than fifty pupils per teacher, a number entirely too large for satisfactory school work. To-day, there is not a room in the city where the class averages fifty pupils. In fact, for many years it has been the policy of the Board of Education to limit the number of seats in a room to forty-two.

Twenty years ago, only twenty-five per cent. of the teachers of Nashua had received normal or college training. To-day, over eighty-two per cent. have had either normal or college training as a preparation for teaching.

Twenty years ago, the Nashua High School numbered one hundred twenty-nine pupils. To-day, the Nashua High School numbers over four hundred pupils which is an increase of over two hundred per cent.

Twenty years ago, the cost of educating a pupil for one year was \$26.39. In 1910, it was \$31.16, which is an increase of only \$4.77 over that of twenty years ago.

It is my opinion that no candid observer could look over the schools of to-day without admitting that progress has been made. To be sure, the expense of running the schools has increased. This, however, is true, not only of schools, but of every other department of human endeavor. That it has not increased unduly, when compared to the cost of running schools in neighboring cities, may be learned from the fact that in the last report of the State Superintendent of Public Instruction the amounts expended, per pupil in Concord, Manchester, Berlin, Portsmouth, and Nashua, were all within four dollars of each other, and that, of these five cities, Nashua was next to the lowest. The year previous it was the lowest.

NIGHT SCHOOLS.

It is unfortunate, whatever the cause, that Nashua should be deprived of evening schools. It seems to me that this question should be treated in a broad way; that any one living in Nashua, who desires to attend an evening school, should be allowed to do so, and that the course of studies offered should be so arranged as to fill the wants of all those pupils. That is, if there should be a demand for classes in reading, writing, and arithmetic, such classes should be formed; if there should be a demand for classes in grammar school subjects, as United States history, geography and grammar, then such courses should certainly be given, and if there be a demand for a course in commercial subjects, as shorthand, typewriting, bookkeeping, etc., those subjects should

be introduced into the curriculum. In other words, anyone who is willing to give his time and devote his evenings, regularly, toward the improvement of his condition should be given the opportunity for that improvement by means of the public schools.

For several years I have watched the trend of evening school teaching in neighboring cities, in order to see, if possible, just what the demand was from the average evening school pupil. I find, after compiling statistics from cities which have a population similar to our own, that in each case, there is a demand in these schools for the primary subjects, reading, writing and arithmetic, which comes largely from the foreign population. I find, also, a lessening demand for subjects similar to those taught in our grammar grades, such as history, geography, grammar, etc.

As further indication of this trend, I would instance the fact that Concord at present is running a night school in which grammar school subjects are taught. I understand it numbers but seven pupils and is to be shortly discontinued. Previous to this year, also, Manchester maintained a night school in which grammar school subjects were taught. There was so little demand for them, however, that this year no school of this character was started.

This has been especially noticeable since the passage of the law forbidding a child to work before he is fourteen. As will be seen, this law keeps practically all children in the day school until they are well through the grammar grades. Accordingly, there is less and less demand in the night schools for subjects of this nature.

Another important point can be readily deduced from night school statistics, and that is the growing demand for business courses. Take the city of Lowell, for instance. In their night schools, they offer courses in shorthand, typewriting, business arithmetic, bookkeeping; in fact all of the main subjects necessary for a business life. This department alone numbers for the present year over twelve hundred pupils. It has a term of twenty

weeks, and it has proved exceedingly popular and helpful to the community.

I believe that if a school of a similar nature should be started in Nashua, it would answer the criticism that our night schools have heretofore been run for a special class. By starting a school such as I have outlined, there can be no doubt that a much wider class of pupils would receive the benefit of this training than would have been possible under the old regime. I would, therefore, recommend to this Board of Education, that the City Government be requested to furnish the sum of two thousand dollars with which to run two distinct classes of schools; one, in which reading, writing and arithmetic are developed; the other, in which commercial subjects are taught. I would also recommend that the length of term be about eighteen weeks, to commence the first Monday in November, and close about the third Friday in March. It is my opinion that two thousand dollars would be ample to cover the expense of running such a school. If this sum were found to be insufficient to run the school during the full term, the period could be shortened a few weeks to meet such an emergency.

HIGH SCHOOL.

As I have indicated above, the growth of the Nashua High school has been remarkable. Twenty years ago, when it numbered one hundred twenty-nine pupils, it occupied the second and third floors of the Spring Street school. In 1905 it was removed to the present building on Temple Street. It then numbered two hundred fifty-five pupils. Five years later, the school had so increased that the west wing was obliged to be added to the original building. Since the completion of that wing, the school has again increased, so that it now numbers four hundred pupils. It is evident that it is a matter of but a few years until a second wing must be constructed, unless some other solution of the difficulty can be found.

As a possible answer to the above problem, I would like to offer the following suggestion. At present there are attending

the High School sixty-five pupils who pay tuition. They come from the surrounding towns of Hudson, Pelham, South Merrimack, Amherst, Litchfield and Windham. These pupils, on the whole, have done very creditable work, so that there is no reason, on the score of scholarship, why they do not form a desirable part of the student body; but the question arises whether the city of Nashua can afford to add an extra wing to its High School building, in order to provide additional room, when the old building would be adequate, were it not for these out of town pupils. It would not seem either right or just to recommend that those pupils already attending the Nashua High School should be deprived of the privilege of finishing their courses, but it does seem to me proper to recommend that no additional tuition pupils shall be received, and that the towns around us be notified to that effect, in order that they may govern themselves accordingly. If this were done, the pupils from out of town, who graduate from the school, would probably just about balance the increase in our own entering classes, so that the High School would be enabled to get along with its present quarters for a number of years longer than it otherwise would. Of course, it is only a question of time when our entering classes from the ninth grades will necessitate the building of an additional wing upon the High School building, but just now the need of a Grammar School building is far more pressing and should receive immediate consideration.

NEW GRAMMAR SCHOOL BUILDING.

The conditions as presented in my report for last year still exist, and, judging by the increase of pupils in previous years, they will grow even more pressing in the near future. We are now utilizing for a fifth grade one of the rooms in the old Quincy Street school building, which is needed for kindergarten purposes. The two rooms on the third floor at the Spring Street building are still in use, while we have been obliged to equip one of the basement rooms in the same building for additional classes in manual

training. The room in the basement of the High School, now used for manual training, although well equipped, will shortly become entirely inadequate to take care of the growth of the manual training classes. I would earnestly recommend, therefore that a committee from the Board of Education be appointed to confer with the City Government and urge upon them the desirability of erecting at once, either upon the Quincy Street lot or upon the Spring Street lot, a commodious ten-room grammar school building. All of these rooms would not be occupied immediately, but six of them at least could be utilized, while the other four would provide for the natural growth of the schools. I predict that within a few years every room would be occupied to its full capacity.

MANUAL TRAINING.

The plan for manual training in the Nashua schools has been carefully worked out and is in successful operation up to and including the first year in the High school. Just what will be done during the last three years of the High School is still an open question. After considering the matter from all points of view, I believe it would be wise for us to adopt the plan so successfully carried out in Fitchburg, which, in brief, presents the following advantages:

1. The cost is less than under any other system, because the city has to hire fewer teachers, and no expensive tools or machinery need to be bought.
2. It seems to work well from the employers' point of view, because it provides them each year with a set of successful and intelligent apprentices, whose work is far above the average of the ordinary apprentice.
3. It works well from the boy's point of view, because he is earning enough money to be self-supporting during his High School course, and at the end of the four years he becomes a skilled workman in some mechanical trade.

There is not space in this paper to go into the working of the

Fitchburg system in detail, but it has now been in practice for a sufficient time, to prove it is not longer an experiment, but a uniform success wherever introduced. Similar plans are being worked out in many American cities. If it were introduced in Nashua, I believe it would be a great help, not only to our young men, but to the manufacturing interests as well.

In closing this report, I wish to express to the Board of Education my appreciation of their uniform courtesy to me during the past year.

Respectfully submitted,

JAMES H. FASSETT,

Superintendent of Schools.

Report of Principal of the High School

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

SIR:

In compliance with the rule of the School Board, adopted one year ago, concerning a report of the High School, I submit the following:

The High School, in general, is not very different from what it was a year ago. I hope that it is in better condition and have some reason for believing that it is.

The corps of teachers has not changed since last year except by the addition of Miss Katherine E. O'Brien. The principal change in the studies is in the introduction of the industrial branches, the work in which will be adequately reported by the special teachers. I am glad to report that this kind of work is justifying its admission. I recommend that it be continued in the second year of the High School course, and that it be given seven times a week to the girls in both the first and second years. If the machine shops of Nashua will open their doors to the boys of the industrial department, I recommend the consideration of a plan by which the boys may spend every other week of the second year of school in the shops. The details of this plan by which boys spend one-half of their time in school and one-half in shops have been thoroughly worked out and tested in Fitchburg and other places.

The following table shows the number of pupils enrolled this year in each subject.

English Literature,	405
English Composition, class instruction,	256
English Composition, individual instruction,	149
History,	218
Latin,	134
*French,	274
German,	54

Algebra,	138
Geometry,	120
Trigonometry and Solid Geometry,	12
Physics,	37
Chemistry,	93
Astronomy and Physiography,	18
Zoology and Botany,	13
Stenography,	25
Bookkeeping,	46
Typewriting,	60
Penmanship,	54
Political Economy and Commercial Law,	29
Commercial Arithmetic,	45
History of Music,	9
Carpentry,	22
Sewing,	12
Mechanical Drawing,	30
Drawing,	22

*The number studying French is larger than the largest number reported by the Superintendent of Public Instruction in his last report as studying French in any New Hampshire high school.

Of those who were in school last year, one has entered the Massachusetts Normal Art School; one, a school for training kindergarteners; two, the normal schools of New Hampshire; two, nurses' training classes in Massachusetts; one, Radcliffe College; one, Harvard College; one, Pratt Institute; and four, Dartmouth College. All of last year's graduates who did their commercial work well in school now have good positions, and many who elected only a part of the commercial studies have positions in stores and offices. There is a steady demand for honest, faithful, capable graduates of the High School. Many business men ask us to recommend to them promising young people. Notwithstanding the increase in the size of the classes, there are always good places for those who are trained and well reliable.

The Nashua High School offers a good deal of liberty, for a school of only four hundred pupils, to its patrons in the matter of electing studies. It sometimes occurs that a small number of pupils choose some one subject. When the number is so small that a separate class cannot economically be maintained, it would be wise in my opinion to require the pupils concerned to choose some other subject. I recommend that the principal, with the consent of the Superintendent and the High School Committee, be given authority to discontinue any section when the number is too small.

The report of this school one year ago called attention to certain defects in our heating plant, in our telephone system, and in our apparatus for operating the clocks and bells. I am pleased to be able to report that improvements have been made in all three of these parts of our material equipment. The radiator which stood unused in a small storeroom adjoining the chemical laboratory has been connected with the radiator in the library; the radiator which was in the physical laboratory has replaced the smaller one in the office; the one taken from the office has been put into the corridor near the east entrance. No new piping was required for any of these changes. A steam pipe has been run along the north and west sides of Room 11 and of Room 16, the physical laboratory. These two rooms are on the northwest corner of the building and they have been hard to heat. Room 5, which is directly under Room 11, was equipped several years ago with an additional steam pipe similar to those recently put into 11 and 16, and the addition has been a great help there. Seven more double windows have been put on the north side of the building, two in Room 16, and five in Room 10. In this latter room, which is always used as a study room, there are ten north windows. By the changes enumerated above, the coldest portions of the building have been more adequately provided for. It is still, however, a difficult matter to make the whole building comfortable in the coldest days, especially if there is a strong wind. The telephones have been overhauled and now give good service. They are a great convenience.

The clock system has been connected with the Light, Heat and Power Company's current and since this was done we have had no trouble in getting a perfectly constant supply of current. The whole apparatus which operates the clocks and bells has to be in perfect adjustment or else the results are poor. The loosening of one electro-magnet in the master clock will cause trying irregularities. Sometimes certain of the signal bells fail to ring as the result of changes in temperature. The rectifier for the electric current is located in a small closet with stone and brick walls on the north side of the basement. About three weeks ago, some of the bells failed to sound. We were a good deal mystified by this until we proved by a few tests that the closet just mentioned was so cold that the salt in the rectifying solution had mostly crystallized in the bottom of the jar. An application of heat dissolved the crystals and made the signals sound vigorously. In operating such a system, the danger of trouble arising from a low temperature may be perfectly well known to the manufacturers. If it is, it seems to me they should have informed us of this danger in the printed directions furnished us for the care of the system. The clocks and bells are now giving satisfaction. It might seem to some people that too much emphasis had been placed on so small a matter as the giving of signals, but keeping the school in good working order depends in no small degree upon just such matters.

Within a year or so a tendency has developed in several colleges to be more liberal in regard to demanding certain fixed studies for admission. No less in quantity is being required, and nothing poorer in quality is being tolerated, but a greater degree of freedom in the range of studies is permitted. A student may now enter Harvard by passing examination in only four subjects, if he has also done his high school work well. One of our last year's graduates passed the Harvard examinations given under these new requirements. New Hampshire College indicates in its last catalogue that all who enter that college in the four-year courses must present enough work in English, mathematics, history, physics and modern language to amount to about

two-thirds of the high school course. The other third of the work may be in a wide variety of subjects, and some of it may be in any branch whatever if it is only in a subject approved by the State Superintendent, and done well enough to merit the certificate of the high school principal. This means that a boy who has done good work at the carpenter's bench may offer it as one subject for admission to New Hampshire College and the girl who has done good work in sewing may offer this also as one subject for admission to the same college. Similar statements might be made with reference to work accomplished in commercial branches. This is a new departure in college requirements and one that will be of great advantage to those high school pupils who start in the commercial or in the industrial courses and later decide to enter college.

Several colleges have recently signified for the first time their willingness to accept a year of work in American history and civil government, giving this study as much credit towards admission to college as is given for the same amount of work in any other study. We are required by the statutes of New Hampshire to give American history to every pupil in the High School. I know of no study more profitable than that of the history and political methods of our country. But pupils who were own fitting for colleges which allowed no credit for this history found the extra study a burden. The number of colleges which refuse to grant credit for American history fortunately is diminishing.

This winter Dartmouth College offered, for the first time, a prize cup costing fifty dollars, to the secondary school of New Hampshire that wins the championship in debate. The Nashua High School is one of sixteen schools which are to compete for this cup. In order to help train the boys for this competition, we have just organized a debating society. It is too early now to report regarding the results of this new school activity.

The principal hereby expresses his thanks to the Board for all the courtesies received, and especially for the opportunity

to attend the monthly meetings. He is also duly thankful for the faithful work done by his associates at school.

Respectfully submitted,

CHARLES H. NOYES, Principal.

REPORT OF DIRECTOR OF MUSIC

JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

DEAR SIR: The supervisor of music submits to you his fifteenth annual report of the music study in the Public Schools of Nashua.

In all the grades below the High School there is a healthy enthusiasm manifested in the work of the music department, by both the pupils and the teachers. The latter have an understanding of the matter that enhances the progress of the class and makes for finished work of a high order. The material used is practically the same that has been in vogue for eight years, and which cannot be improved upon with any music books now published.

The theoretical course of music in the High school has now been in practice one year, and it has proved an excellent addition to the curriculum. Last June fourteen pupils completed the first year's work with high credit in the study of harmony, history of music and choral singing, for which credit was given toward obtaining a diploma. This work is confined to the senior class, with the exception of chorus work.

For ten years the High school chorus has participated in the music festivals, which are given in May of each year, with credit to the school and the pupils. Last May the festival was given in the new Colonial Theatre, in conjunction with the Nashua Oratorio society, and though the financial side of the festival was disastrous the artistic results were of a high order. The chorus numbered one hundred and ninety voices, with the four parts well balanced. The works sung were Goring-Thomas' "The Swan and the Skylark," and Max Bruch's "Fair Ellen," two cantatas of true musical value.

The soloists were New York and Boston artists of international fame, namely Mrs. Grace Bonner Williams, soprano; Mme. Isabelle Bouton, mezzo-soprano; John Barnes Wells, tenor; and

Reinald Werrenrath, baritone. The Boston Festival orchestra furnished the instrumental music, and Miss Helen B. Ward was the pianist.

At the present time the chorus numbers two hundred and fifty, and the works in study are "Olaf Trygvasson," composed by Edward Grieg, a legend of Denmark dealing with the first christian king of that country, and the cantata "Hiawatha's Wedding Feast," taken from Longfellow's poem, set to music by Samuel Coleridge Taylor. These will be given at the annual festival, May 16 and 17, with Miss Mildred Potter of New York, mezzo-soprano; Lambert Murphy of the Metropolitan Opera Co., tenor; and Stephen Townsend of Boston, baritone, and the Boston Festival orchestra. The festival will be held in City Hall, since this is a better auditorium for musical effects than the theatre. As has been the custom, the Nashua Oratorio society will finance the festival.

The supervisor is grateful to you, Mr. Superintendent, to the Committee on Music, to the Board of Education and the entire corps of teachers for the kind co-operation in the advancement of music in this city.

EUSEBIUS G. HOOD.

Nashua, N. H., January 1, 1912.

Report of Director of Manual Training

MR. J. H. FASSETT, SUPERINTENDENT OF SCHOOLS:

DEAR SIR: In compliance with your request, I submit my second annual report of the Manual Training Department.

In my last year's report it was difficult to say much about the work accomplished, as the Department had been running but a few months. At this time I am pleased to report that from the Director's point of view, with no exception, the work has been a success. To cite a few incidents which have occurred since last January, I might mention the following:

The forming of two teachers' classes; meeting one on Wednesday from 4.00 to 6.00, and the other on Saturday from 10.00 to 12.00. These classes continued with much interest and success up to the month of May.

On March 8th and 9th, an exhibition was arranged in the High School Shop, taking place in the evening with the boys working on their regular work. A number of finished models were also displayed, the exhibition lasting two days; the first night being open to the members of the City Government, and the second night to the general public. This gave the people of Nashua a splendid opportunity to see the working of the Department; as a result of this, a great many favorable comments were made, and the Manual Training appropriation doubled.

In May, an exhibition of some of the work was arranged in the window of the Howard Sexton Co. Store on Main Street. This display attracted much attention.

The Director has been present at several meetings and given talks on the Manual Training work in Nashua.

Not less than five hundred people have visited the Department since its introduction.

A new shop has been equipped in the basement of the Spring Street School and an assistant instructor added to the faculty.

A room in the High School has been equipped to receive pupils

for instruction in Mechanical Drawing, containing the necessary tables and instruments.

Most important of all, the High School has added to its curriculum an Industrial course, subjects in which are as follows:

INDUSTRIAL COURSE.

First Year.

Required.	Periods per Week.	Point.
English,	5	5
Algebra,	5	5
Carpentry,	6	3
Mechanical Drawing,	4	2
Pupils must elect one of the following:		
French,	5	5
Ancient History,	5	5

In this course the eighty minute period is required as the equivalent of the forty minute recitation period.

At the opening of the High School last September, two classes were formed in the above subjects. Not a boy has given up this course, which goes to show that they are all interested and satisfied with the instruction which they are receiving. A number of High school students, other than Freshmen, asked for instruction in Mechanical Drawing, and this instruction was arranged for in the majority of cases, but on account of the crowded condition of the Drawing Room, a few had to be turned away.

HIGH SCHOOL WORK.

The work in the High School differs from that in the grades in two important particulars. It is planned to require a greater degree of technique, looking forward to more thorough preparation for the boy who intends to enter a technical school and make more versatile the boy who leaves at the close of the High school course. The work in the High School Shop consists in teaching the history and the use of different wood-working tools, common joints and their application, the care in grinding and sharpening tools, furniture construction, wood carving and wood finishing,

shop methods and processes. From time to time talks are given on the following subjects: Composition and Structure of Wood; Kinds and Qualities of Wood; Forestry, Lumbering and Milling; also on the value and importance of time, labor and materials as well as the manipulation of various tools and instruments. The ultimate purpose being, as stated above, to prepare students to cope with industrial conditions and to prepare them for entrance into the scientific and technical schools.

The boys have made a number of things for the school, such as tool-racks, bench hooks, "T" squares, drawing boards and test-tube stands, thereby saving the city considerable expense. All such problems are carried out on regular shop principles, the pupil ascertaining the cost of production, etc.

The boys taking the work this year are showing more interest than they did last year. Proof of which is in the fact that whenever the shop is open after school hours a dozen or more boys may be seen busily at work.

The Mechanical Drawing room contains four long drawing tables, planned especially by the Director, to meet the present and future needs of the Department. Each table accommodates four pupils at a time, and they contain sufficient locker space to allow them to be used by over one hundred pupils. The Drawing instruments are similar to those used in every up to date High school.

The Mechanical Drawing work consists in the teaching of the care and use of Drawing instruments, Lettering, Terms and Definitions, the solving of Geometrical Problems, Orthographic Projection and the Development of Surfaces. A number of advance pupils are working on machine details, Inking, Tracing, and Blue Printing. This work is of vast importance as it gives the young man the power to represent things on paper which he would find difficult to explain in any other way. This ability is a great asset for every individual to-day.

The quality of the work this year surpasses that of last year in that the pupils show better technique.

The keeping of notebooks by the pupils and the marking of

same by the instructor helps greatly to the advancement and success of the work.

I would like to see the English Department and the Manual Training Department co-operate more, that is in the classes where the pupils take the Industrial work. This could be carried out by having the pupils write compositions on their Shop experiences and by the reading of mechanical magazines and periodicals, the writing of business letters, etc.; the same principle is true with the History; for the above named pupils, it should be more of an Industrial nature.

This brings up the subject of the co-operative Industrial Course which was mentioned in your last year's report. I am fully in sympathy with this idea of trade school, and would like to see a demand made by the local industries to combine the last three grades in the High School with the actual manufacturing plants of this city. The plan has been carried out in a few cities with success.

MANUAL TRAINING IN THE GRAMMAR SCHOOLS.

Mention has already been made regarding the exhibitions and interest shown in the Grammar School work. Considering the Grammar school boys have never had any Manual Training work previous to last year, the pupils are deserving of much credit judging from the quality of their work.

This year the boys in the 7th, 8th, and 9th grades are surpassing the quality of last year's work.

In September a new Manual Training room was opened in the Spring Street school. The equipment was purchased from local dealers, and consists of twenty-two Manual Training benches fully equipped, and the necessary extra tools such as are usually used in grade work.

A program of work was arranged for the 6th, 7th, 8th, and 9th grades, each 6th grade pupil receiving one hour per week; 7th grades receiving one and one-quarter hours, 8th grade one and one-half hours, and 9th grade two hours.

The course of work is similar to that taught in most grammar schools, with the addition of Mechanical Drawing as each pupil makes a completed working drawing of every model which he completes. This enables the pupil to understand clearly the relation between the Mechanical Drawing and the finished article.

We run the shop on as near shop principles as possible; the pupil keeping time and stock cards as they did last year. A report of the pupil's work is sent home to the parent, which is signed, returned and placed on file.

Mr. Fuller, who has charge of the classes in the Spring Street Shop, is showing great interest in his work and a loyalty to the school which is most commendable.

The Shop is open every day after school so as to enable the slower pupils to keep up with their class and also for the boys that show special talent to put their time in on more advanced problems.

The Elementary Manual Training which is a preparation for the bench work, and was taught last year by the 6th grade teacher, is now being taught by the shop instructor in the regular Manual Training room; thus the present conditions under which the pupils receive their instruction are more satisfactory.

Allow me to make special mention of the knife work done by the 6th grade teachers last year; it reflected great credit upon themselves and was much appreciated by the Director.

During the past year, 94 visits of supervision have been made to the various classes.

On account of the assistant's time being entirely taken up with classes, and the Director having to teach one class from the Arlington School, and two from the Mt. Pleasant in addition to his High school work, it is impossible to introduce Elementary Manual Training into the 5th Grades.

Number of pupils receiving instruction last year,	315
Number of pupils receiving instruction this year,	356
Increase over last year,	41

RECOMMENDATIONS FOR THE EXTENSION OF MANUAL TRAINING
IN NASHUA PUBLIC SCHOOLS.

The work in the High School thus far has been very successful; being of a practical nature, it holds the boy's interest. Not one boy has left the Course, and every boy has expressed a desire to continue with the work next year.

Therefore, I recommend:

1st. That Industrial work be introduced into the second year of the High School Course.

2d. That four electric lights be installed in the Mechanical Drawing Room in the High school. Under present conditions, it is difficult for a class to see to do accurate work without artificial light.

3rd. That a number of reference books on Manual Training and Mechanical Drawing be placed in the High School Library. At present there are no available books in the High School Library on the above subjects.

4th. That a series of lockers be built in the Spring Street school so as to accommodate the pupils' work. At present a number of shelves are being used, which are very unsatisfactory and inadequate.

5th. That the matter of a new building on the Spring Street lot be taken up with the object in view of containing sufficient rooms to accommodate the Manual Training Department, as well as the overflow from the Spring Street school.

CONCLUSION.

The development of Manual Training during the past ten years is conclusive evidence that the leaders in educational movements are convinced of the necessity of this vitalizing force in our common schools, not only to keep the boy in school, but to make him a more intelligent and efficient member of society when he leaves school. Therefore, there should be no hesitation in Nashua towards the further development of Manual Training,

if our schools are to be numbered among the most progressive and efficient.

The establishing of the work in the High school marks an extension of work during the past year.

With these statements before the tax payers and citizens of our city, it is hardly necessary to add that the increased appropriation made by the City Government last Spring is being used to the full limits of its possibilities.

For the cordial support received at all times from the Superintendent of Schools, Board of Education, Teachers, City Press, and citizens, I express my appreciation.

Respectfully submitted,

ERNEST W. BECK,

Director.

REPORT OF DIRECTOR OF DRAWING

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

DEAR SIR: With the permission of the Board of Education, the Mechanical Drawing in the High school is being taught by the Manual Training Department and my time at that school is given wholly to free-hand drawing. I offer two different lines of work which should attract pupils with quite different objects in view. One course leads to proficiency in free-hand drawing. I earnestly recommend all pupils who intend to go to a normal school, after graduating from the High School, to take at least two year's work of this course. The other course, which we call the industrial course, supplements the course in sewing which Miss Blodgett is giving. The work of this course is divided into two parts. The first part aims to teach the fundamental principles of design, and the second part consists of problems which are applied directly to the pupil's work in sewing. The pupils in the industrial course have two lessons each week prepare work at home under my direction, and receive a mark for their work which counts as much towards their promotion as a mark in any other subject. This placing of drawing on a par with other subjects makes a decided difference in the seriousness with which pupils undertake the work and promises much for its success.

I have used for some years past, for my office, a small room which was part of the hall in the Spring Street school. For the last two years Miss Blodgett has shared it with me. It is entirely too small to hold our supplies. It is without heat, so that it is impossible to work in it a large part of the year, and it has no artificial light, so that I cannot ask teachers to meet me there after school for instruction or help. The Drawing Department needs a room with heat and light, with wall space suitable for hanging a permanent exhibit of the work cabinets and shelves for storing supplies, and room enough to seat at least twenty teachers. I recommend that whenever there is a new school

building, one room be made suitable for the head-quarters of the Drawing Department.

During the last two years we have exhibited our work three times; in June, in connection with an exhibition of sewing in all of the grammar schools in which Miss Blodgett taught sewing; in September, in Concord, where we joined with other cities in an exhibition which was held at the time of the meeting of the State Teachers' Association, and in November I exhibited a small collection of drawings and handiwork at the educational meeting of the Nashaway Woman's Club. One gets a better idea of our work from an exhibition than from seeing the lessons given week by week, and I am glad to say that the general opinion of the teachers and of others who attended the exhibitions was that a decided improvement had been made in the work in the last three years. As I give only one lesson in every three this improvement is due largely to better teaching on the part of the grade teachers. I can truly say that I think they are steadily improving in their teaching of drawing and I thank all who have co-operated with me in trying to make the work of the Drawing Department a success.

Respectfully submitted,

ELIZABETH L. BUCKINGHAM

REPORT OF DIRECTOR OF SEWING

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

DEAR SIR: In compliance with your request, I submit the second annual report of the Sewing Department.

GRADE DEPARTMENT.

In May, 1911, an exhibit of the work in Sewing was held in each of the rooms, in which the various grades throughout the city receive this instruction. The exhibit was well attended, not only by parents and the teachers from other buildings, but by many others.

In November, 1911, at the request of a representative of the Nashua Woman's Club, an exhibit, in connection with other school work was held at the Club room on Main Street. In connection with this exhibit an explanation of the Sewing course was given by the Supervisor.

The course of work in Sewing is being varied as opportunities permit. This year the girls in the various grades have either completed or are working upon holder covers, aprons, petticoats, dust caps, underwaists, baby dresses, nightgowns, and shirt-waists, with accompanying samplers of stitches, seams, tucks, plackets and buttonholes.

This year it has been necessary for the teachers of the sixth grades to conduct their own Sewing classes. These teachers were presented typewritten directions for the stitches to be taught during the year. In addition to this, the models have been worked out with the Supervisor before they have been presented to the classes. Many visits of supervision have also been made and the Supervisor is much pleased with the interest and effort which these teachers display in regard to the work.

RECOMMENDATION FOR THE GRADE DEPARTMENT.

Owing to the general marked improvement in the hand sewing of the higher grades, I recommend, for the continued success of the Sewing Department, that four Sewing Machines be installed for the ninth grades at the beginning of the school year, September, 1912.

HIGH SCHOOL.

At the opening of the school year, September, 1911, an Industrial Course was introduced into the High School.

INDUSTRIAL COURSE FOR GIRLS.

Required Subjects.

English,	5
*Design,	2
*Sewing,	3

Elect two subjects.

Algebra,	5
History,	5
French,	5

*An equal amount of time devoted to home work is required in the subjects marked.

The course was open for election to the entering class.

Considering the fact that nearly one-half of the students who elected this course received no instruction in Sewing in the ninth grades from which they came, there has been, of necessity, a lack of uniformity in the work, yet the persistent effort of these pupils is becoming apparent in the results accomplished.

The value of this Industrial Course is becoming recognized, and it is hoped that the next entering class will be somewhat larger than the present class.

RECOMMENDATIONS FOR THE HIGH SCHOOL.

I recommend:

1. That the work of the Industrial Course be extended into the Sophomore class the coming year, whereby the present students who elected the course will have the opportunity of continuing the work.

2. That, as better and more uniform results can be gained by having a greater amount of class work under supervision, I recommend that as many, preferably consecutive, periods as can be satisfactorily arranged, be devoted to the Sewing of both the Freshmen and Sophomore classes.

3. That one more Sewing machine be installed in the High School.

4. That, if the use of Room 15 is to be continued for the Sewing classes, it be equipped with pressing facilities. This necessitates electric wiring and the purchase of an electric iron.

In considering the character of the work in Sewing which is to be possible, it becomes more and more evident that a special room is needed for the Sewing Classes. This room to be well-lighted, to have a comfortable seating arrangement, to have facilities for cutting, fitting, pressing, storing of materials and specimens of finished work, and to be convenient for conferences.

In conclusion, I sincerely thank the Superintendent of Schools, the Board of Education, and the parents for their kindness and helpfulness, and the Nashaway Woman's Club for the material manifestation of their interest in the work of the Sewing Department.

Respectfully submitted,

GLADYS BLODGETT.
